### CALL BEFORE ARRIVING

Winneshiek County Public Health along with ALL Winneshiek County healthcare providers strongly encourage the community, that if you are experiencing any respiratory symptoms including fever and cough, for you to call your providers before going to their facility. This also includes the emergency room.

Pointed questions will be asked of you if these symptoms are being demonstrated so that appropriate and recommended care may be provided to you correctly. We are asking that you answer these questions truthfully. If you have any concerns about these symptoms, please call your providers as well.

Remember to:

Stay home when sick

Cover your cough using your sleeve

Wash your hands for at least 20 seconds
